A breakdown of persons arrested for murder was 87 percent male, 13 percent female, four percent juvenile, 73 percent Black, 26 percent White and less than one percent consisting of American Indian, Asian and Pacific Islander.

During 2017, 258 of the murder victims were in the 18 to 29 age group, representing 45 percent of the total. There were 43 juvenile victims of murder, accounting for eight percent of the total murder victims. Firearms were used in 78 percent of the reported murders in 2017. This represents a nine percent increase in their use when compared to the use of firearms in 2016. The next most used weapon was a knife, accounting for 11 percent of the reported murders in 2017. In 2016, knife accounted for 12 percent of the reported murders.

Drug related murders accounted for four percent of the total in 2017. In 2016, drug related murders accounted for one percent of the total.

Family members, as offenders, accounted for seven percent of the total murders in 2017, compared to 11 percent in 2016. Of the family members as offenders, husband and wife or boyfriend and girlfriend (those who had lived together) reflect two percent of the total murders reported.

Additionally, an acquaintance is listed in 14 percent of the murders reported in 2017. Strangers and unknown relationships accounted for two other large categories with 10 percent and 81 percent respectively.
